Mrs Heather Clark

Usually the minister and churchwardens should be the petitioners. Where that is not the case, please provide an explanation here (including details of the interest which it is said that a person who is not the minister or a churchwarden has in the matter).

We petition the Court for a faculty to authorise the following-

Please fully and accurately state the works or other proposals for which a faculty is sought. Where relevant, include the number and date on the architect's or surveyor's drawings or other specifications. If it is proposed to dispose of any item details must be given.

The works or proposals must be the same as those in respect of which the Diocesan Advisory Committee has given any advice (subject to any modifications that have been made to take account of advice received – if any modifications have been made they also must be described here).

SCHEDULE OF WORKS OR PROPOSALS

To remove the current audio equipment from the cupboard at the back of the church which is very inaccessible and difficult to work with during a service. This will be relocated in a purpose-built desk made from the redundant pews. The desk will be approximately 1m wide and will have a knee hole on one side and a lockable cupboard on the other which will contain both the current audio equipment and the new visual controls.

The desk is to be made by a local carpenter. The dimensions of the desk proposed are marked on the photograph. The desk will have a lockable top which can be folded back using piano hinges.

The desk will be placed behind what will be the back pew - from this position the person operating the controls can see the whole church and chancel and can judge the sound accurately as well.

Also to install a remote controlled screen and projector so that we can use these for any service where audio-visual aids would be an advantage. In particular we would want to use it for our two new services - the 4 o'clock slot and the informal morning service.

To install a Sapphire "smart move" screen, which has a drop of up to 5m before the screen comes down. This will allow us to install the screen behind the chancel arch in place of a redundant strip light - the wiring for the screen will replace that for the light. A photo showing the position is enclosed.

We propose to use an Epson EB-G7200W Projector in combination with the screen - this to be mounted on one of the diagonal trusses so that it is visually not intrusive - the wiring will go in existing trunking.

Copies of the Standard Information Form and any drawings, plans, specifications, photographs or other documents showing the proposals must be provided with this petition.
