

Work at St.Mary's Hale 2019

This year the Church has been decorated outside. Prior to this we had to have the bees removed and extensive wood work repair following that. Philip Scott then set to work with his associate James to complete the task. We think that they did a great job. All the people involved were courteous and showed respect to each other, bearing in mind that everything had to be done in sequence and with not much time in between the various jobs. Sadly during this time there was an attempted break in on the vestry door. We had a new lock fitted.

We now have Sandy and Eddie learning to take their turn to be sides-persons, which is a great help to the other two couples who share this task.
