

A Lent Appeal starts 17 February

Christchurch
Deanery

to support Nyakatere Health Centre, Kinkiizi Diocese Uganda

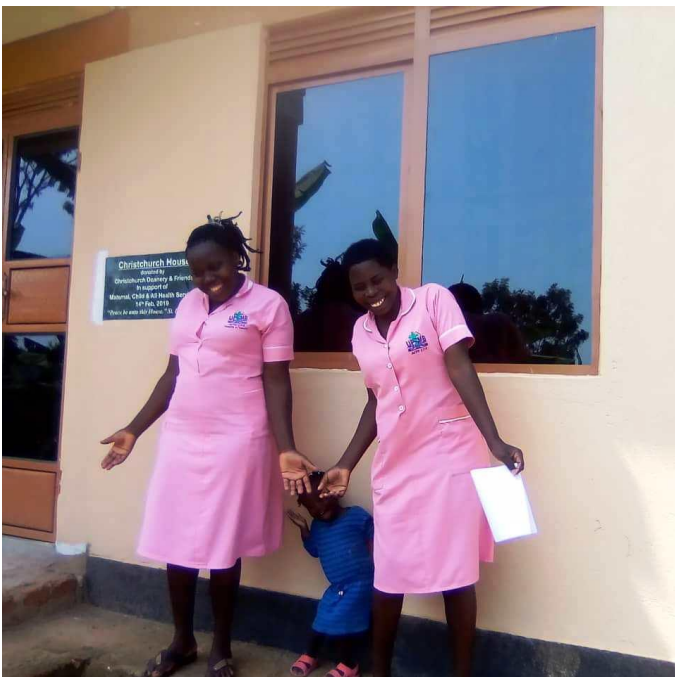

There's an acute shortage of staff in Ugandan Health Centres – many have less than 50% posts filled. Rural areas are worse than urban. Kinkiizi is rural, remote and finds it hard to attract staff so offering accommodation is an advantage in this competitive market.

Christchurch Deanery began funding building a 3 apartment block for NHC in 2016, an ambitious project but one that could make a real impact on staffing. Now its almost complete!

Just one more unit remains unfinished needing about £3000 for completion.

Christchurch House

Join in with the 40 x 40 Lent appeal and help provide this vital facility for health care in Kinkiizi. Just save 40p each day during Lent and you will finish with £16. A simple thing but it will make an enormous difference! Every single penny raised will go to Kinkiizi.

Let's get it finished and see the joy on 2 more nurses like these midwives moving in earlier this year!
